Nitesh Cape Cod is a unique blend of technology and eco-friendly measures. Being the first of its kind, it proposes to be easy on the environment without compromising on comfort. It promises a contemporary lifestyle, the result of a planned out 'green architecture' by renowned global architects. These spacious residences take living to a new level where comfort and the element of nature go hand in hand.

GREEN RESIDENCES THAT GIVE
YOU THE OPULENCE YOU DESIRE,
AND TO THE EARTH, A CHANCE TO LIVE.

Adding the sustainable experience are the glass-encased balconies that maximize natural light, with floor-to-ceiling windows. This arrangement in combination offers maximum ventilation and natural light to every last residence in the building and the common areas too.

So, your evening-walk, kids' playtime or even light chat with the neighbour by the garden can be a little longer and a lot calmer.

HOW ABOUT THE SUN SETTING A LITTLE LATER?

Nitesh Cape Cod has achieved Gold Pre-Certification from India Green Building Council (IGBC) Green Homes Rating. Needless to say, Nitesh Estates attempts to make the most of every drop of water that comes by. With a system for rain water harvesting for domestic purpose & recycling (plumbing, landscape activities and car washing), not a single drop of water is wasted.

LESS FROM THE GROUND,
MORE FROM THE SKY.
