Live well. Inside out.

At Rejuve 360, we look at wellness holistically. It's not merely limited to the amenities and features that you will find in the complex, but even inside the home that you will reside in. Our aim is to create an overall environment that keeps you rejuvenated.

Nearly 90% of the apartments are either east or west facing, which ensures that the rooms are flushed with sunlight and remain well ventilated. This also ensures that you get to soak in the tranquil views of the hills on one side and creek on the other.

Relax yourself by taking a leisurely stroll through the elevated Herb Garden or the Reflexology Path. Having a calming session of yoga in the pool-facing clubhouse, simply soaking your feet in the pool or lounging at the pool cabanas will do wonders for your spirit. The hot spring and the azure pool will help revitalise your body, while a session at the spa and wellness center will give you a refreshing break from a tiring day. A re-energising game of tennis or badminton with family or with your like-minded neighbours in our state-of-the-art clubhouse will be the perfect way to end your day.

Feel the wellness all around.
