

EMAAR

INDIA

AMARIS

Promise your loved ones a home where every day unfolds just as they desire.

Where your little ones have the space to play to their hearts' content. Where you find more time for moments of bliss with your spouse. Where your parents feel secure and at ease with every modern comfort.

As you begin a life inspired by promises, start living by the one you made to the earth. Here, your promise to give back to nature finds fulfilment through eco-conscious living spaces. Surrounded by a community that shares your will to make a difference, sustainability is the way of life here.

PRESENTING
AMARIS

—
A MEANINGFUL LIFE
STARTS HERE

**EVERY LITTLE STEP
YOU TOOK FOR
THE EARTH, HAS BROUGHT
YOU RIGHT HERE.**

Nestled across 24,759 sq. m. (6.118 acres), Amaris stands tall in Sector 62, one of the most promising neighbourhoods in Gurugram. Here you get to live in an elite neighbourhood and keep rooted to your philosophy to live for the future.

2, 3 & 4 BHK luxury residences

GREEN

LIVING

**CONSCIOUS LIVING IS
NOT JUST A CHOICE,
IT'S A WAY OF LIFE HERE.**

Keeping our carbon footprint in mind,
we have adopted a green living concept
to make the future of your children, and
the planet greener, better, healthier.

**Outdoor air purifier to
enhance the air quality***

Air purifier in all tower lobbies

**Dedicated air purifiers in living &
dining area and all bedrooms**

*Outdoor air purifier with multi layered passive and active air treatment technologies,
to enhance the air quality.

**LIVING FOR THE
ENVIRONMENT IS AT
YOUR CORE. START THAT
JOURNEY RIGHT HERE.**

Water is the source of all life on earth.
This makes it our collective responsibility
to conserve this source, the future.

Rain water harvesting

 - Trampoline
 - Jungle gym play court
 - Climbing mound
 - Play tunnel
19. Ramp towards basement
20. Guard room
21. Pet park

WELCOME TO AMARIS, WHERE LUXURY MEETS SUSTAINABILITY, AND EVERY CHOICE FEELS LIKE A STEP TOWARDS A BRIGHTER FUTURE.

EMISSION REDUCTION

We follow the best construction practices for minimal impact on the environment. Site barricading is as high as 10.0 m for controlling dust emissions. All our construction sites are equipped with anti-smog guns for dust emission control. We also have online Particulate Matter (PM10 & PM2.5) sensors fitted with cameras to monitor pollution level.

SUSTAINABLE ARCHITECTURE AND DESIGN

Our buildings are meticulously planned to ensure maximum daylight thereby reducing energy consumption. Optimal wall-to-window ratio minimizes heat gain and reduces cooling load.

SITE SELECTION AND PLANNING

Our commitment to sustainability starts even before construction begins. We meticulously choose a site to minimise disruption to the natural landscape. We prioritise preserving existing trees and using top soil for lush landscaping, ensuring your haven feels naturally connected.

A LIGHTER FOOTPRINT, NATURALLY

Imagine living in a home that minimises its impact on the environment. We have partnered with Accacia (GRESB premier partner), a global platform for measurement, reporting and reduction of Green House Gases (GHG) emission marking a substantial step towards making Emaar's portfolio green, tackling climate change and moving towards net zero.

BUILDING MATERIAL

We use locally sourced materials whenever possible to reduce our carbon footprint. Use of eco-friendly materials like heat reflective paint on roof (to reduce heat ingress) and energy-efficient cooling systems help keep your home comfortable and cool while reducing carbon footprint and hence less impact on environment.

INDOOR AIR QUALITY

Clean air is essential for well-being. Amaris prioritises your health by ensuring adequate ventilation and use of low-VOC paints to create a fresh and healthy living environment.

ENERGY EFFICIENCY

Our buildings are designed to maximise natural light utilisation. Use of energy efficient appliances and HVAC systems ensures efficient energy consumption.

WATER CONSERVATION

We take water conservation seriously. Use of low-flow fixtures ensures optimal water consumption and advanced rainwater harvesting systems ensure this precious resource is used wisely all while promoting a more sustainable lifestyle.

WASTE WATER REDUCTION AND RECYCLING

We invest in cutting-edge sewage treatment technology for treatment and recycling of wastewater. Organic waste composters are installed at site for treatment of biodegradable waste thereby offering a sustainable solution for a greener planet.

EMAAR

One of the most trusted and admired real estate groups worldwide, Emaar stands synonymous with thoughtful architecture, excellent engineering and impeccable execution. With proven competencies across a myriad of portfolios – commercial, residential, retail, hospitality and leisure, Emaar is a well-recognised name, known for its iconic assets in Dubai and other International markets. Emaar India carries its global legacy with a formidable portfolio of remarkable residential and commercial spaces across the country, viz. Delhi/NCR, Mohali, Lucknow, Indore and Jaipur.
